PMX ROTARY VALVES

Rotary Valves for Metering, Feeding and Airlock Applications

A Precision rotary valve designed to reduce total lifecycle maintenance requirements. The PMX-R and the PMX-S series housings are cast in North America and CNC-machined to precise tolerances.

PMX Rotary Valves offer:

- Cast iron housing with industrial chrome
- Fabricated mild steel rotors: 8-vane, close-end
- Outboard bearings
- ACST shaft seals

Frequent shaft seal adjustments, failures, and replacements don't have to be fact of life.

Precision uses a specially designed T4 Glandless Teflon® Shaft Seal. This sleeve-style shaft seal reduces rotary valve total cost-in-use by providing immediate maintenance savings and extending valve life.
PRECISION PMX SERIES S AND R

PMX-S SERIES
(PMX-8S, PMX-10S, PMX-12S)

PMX-R SERIES
(PMX-8R, PMX-10R, PMX-12R)

- Valve housing cast in North America; superior strength
- CNC-machined components and housing provide precision tolerances
- Outboard bearing design protects bearings in high-temperature and high-pressure applications; removes bearings from direct path of damaging contaminants
- Excellent performance in high-temperature applications up to 750°F
- Fabricated MS 8-vane closed-end rotor with beveled tips
